

3D LED Tube Light

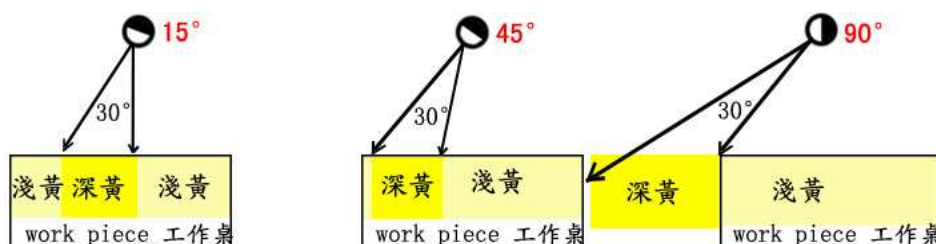

(Swivel Tube Vs. Light Position)

World patented Made in Taiwan

The tube place on plane .

Swivel Angle : can be swivel left or right 45 degree each side.

The designer best choice : The LED light first needs 3 points must be balanced.

To adjust or swivel both end cap (light wave direction to your need's area) and select light chip beam angle is best for light shade.

T10--16W x 4 ft.

Item No.	Swivel Angle	Length	Suits for
T10430	30 degree	4 ft.	Show case , a part of light pattern
T10460	60°	4 ft.	Display part of lighting.
T104120	120°	4 ft.	General purpose lighting

T10415 15 degree 4 ft Special lighting (narrow area)

T8--8W x 2 ft.

Item No.	Swivel Angle	Length	Suits for
T8230	30°	2 ft.	Show case , a part of light pattern
T8260	60°	2 ft.	Display, part of lighting.
T82120	120°	2 ft.	General purpose lighting

T08215 15 degree 2 ft Special lighting (narrow area)
